---

Here's what I know.

Steve Irvin was the Principal Engineer at DBI Remediation Products from March 2003 to April 2008. DBI was sold to Carus Corporation in April 2008. CAP18 and CAP18 ME are produced by Carus Corporation.

DBI Remediation Products, LLC applied for the trademark of the name CAP18 on December 5, 2006.  
<http://trademarks.justia.com/770/54/cap-18-me-77054298.html>

If you look at the Final Protocol for In Situ Bioremediation of Chlorinated Solvents Using Edible Oil you sent a while back, Steve Irvin is listed as the contact person for DBI Remediation Products, LLC in the Vendor List of Edible Oil Products.  
<http://costperformance.org/remediation/pdf/Final-Edible-Oil-Protocol-October-2007.pdf>

This is also kind of interesting. Steve is listed as the contact for DBI.
